Plastic Wildcat Sieve

100% WOOD FREE! Constructed with FDA & USDA Compliant Food Safe Plastic. All sieves without backwire are designed and built with limited fasteners. All sieves are fabricated on CNC machinery for a precision fit and finish.

The Norvell Plastic Wildcat Sieve features a solid aluminum drop-in tray. Our unique design mechanically seals on the sieve. All aluminum trays are available with or without backwire. Beneath the tray will be a formed stainless steel pan.

- ◆ Plastic Wildcat Sieves are also available with backwire.
- ◆ Aluminum Corners add strength and durability to the structural integrity of the sieve.
- ◆ Custom designed to meet the customer's required flow.
- ◆ Norvell's Plastic Sieves without backwire have limited fasteners.
- ◆ Glue-On screens for optimal screen tension.
- ◆ Computer Numerically Controlled fabrication continually ensures quality fit and finish.

Additional Sizes are Available to Fit Your Requirements!
